SIRAJUDIN

BS Artificial Intelligence Student @ FAST NUCES Karachi | Aspiring Machine Learning Engineer

Karachi, Pakistan | +92 3146316305 | sirajack9090@gmail.com | Portfolio | GitHub

PERSONAL PROFILE

Aspiring Machine Learning Engineer and BS Artificial Intelligence student at FAST NUCES Karachi with a strong foundation in Python, C/C++, data structures, web development, and machine learning. I learn by building practical systems, including an admissions guidance platform, a tourism management system, a Python Rule Based chatbot, and supervised machine-learning projects. Interested in developing reliable AI systems and pursuing advanced study in Artificial Intelligence.

EDUCATION

2025 – Present | BS Artificial Intelligence — FAST NUCES, Karachi, Pakistan
Focus: Machine Learning, Computer Vision, Neural Networks, Data Structures & Algorithms, Programming
Completed 2025 | FSc (ICS) — Akhuwat College Kasur (Lahore), Pakistan
Computer Science, Mathematics and Physics | **Result**: **83.5%**
Completed | Matriculation — Public School and College, Skardu, Pakistan | **Result**:**83%**

EXPERIENCE

CodeAlpha | Virtual Python Intern | Virtual

- Developed practical Python projects including a rule-based chatbot, Hangman game, and Stock Portfolio Tracker.
- Applied programming logic, functions, data handling, debugging, and problem-solving to functional applications.
- Strengthened practical software-development skills through project-based work.

SELECTED PROJECTS

ADMIT-WISE | GitHub Repository
Student university admissions guidance platform covering entry tests, test patterns, aggregate calculation, admission chance prediction, fees, and rankings in Pakistan.
GB Tourism Management | GitHub Repository
Full-scale tourism management system for booking and tourism logistics in Gilgit-Baltistan.
Simple AI Chatbot | GitHub Repository
Python-based chatbot demonstrating conversational AI fundamentals and interactive user input.
Hangman Game | GitHub Repository
Interactive word-guessing game developed in Python using core programming logic and user interaction.

COURSES & CERTIFICATIONS

- **NumPy** – Python Numerical Computing Course, Mindluster: arrays, indexing, slicing, mathematical operations, and data manipulation.
- **CodeAlpha Virtual Internship Certificate** – Python programming and practical software projects.
- **ICAP** National Mathematics Championship 2024 – Certificate of Participation.
- **Lahore Science Mela 2023** – Certificate of Participation / Exhibition.
- **Sports Certificate** – extracurricular participation.

TECHNICAL SKILLS

Programming: Python, C, C++
AI & Data: Machine Learning, NumPy, Pandas, Matplotlib, Seaborn
Computer Science: Data Structures & Algorithms, OOP, problem solving
Web: HTML, CSS, JavaScript
Tools: Git, GitHub, VS Code, Replit, Kaggle, Google Colab

ACADEMIC & EXTRACURRICULAR ACTIVITIES

- Participated in the ICAP National Mathematics Championship 2024, strengthening mathematical reasoning and problem-solving.
- Exhibited at Lahore Science Mela 2023, gaining experience presenting a science/technology project.
- Participated in sports activities, developing teamwork, discipline, and collaboration.

RESEARCH & CAREER INTERESTS

Machine Learning, Deep Learning, Computer Vision, Neural Networks, Natural Language Processing, Data Science, Intelligent Systems, and practical AI applications.
